

# HEROCart™

The First and Only Medical Cart Designed for Single Patient Use

## Designed to Work Smarter.

For Public Release – April 10, 2020, Sacramento, CA – USA  
COVID-19 INNOVATIVE HEALTHCARE SOLUTIONS

### Challenge

A national and worldwide health challenge called the COVID-19/Coronavirus Pandemic has taken everyone by surprise, resulting in overcrowded hospitals, shortages of proper equipment, the need for innovative technology and even more healthcare professionals. Emergency field hospitals and triage centers are being prepared for mass patient population. The President of the United States and governors around the county are looking for innovative products, resources, supplies and cures. We have an emergency – time is critical and solutions need to be found on multiple levels.

In response to this emergency, TAGCarts™ halted design and development of it's top-quality, best in class healthcare medical carts, workstation carts, and smart rail systems. They pivoted to innovate and create a scalable product solution that is readily available, increases nurse / patient safety, reduces cross contamination, optimizes nurse workflow, is less expensive and environmentally friendly (disposable).

**NOW accepting pre-orders only thru exclusive channel partner, American River Medical. Ships in 2-4 weeks, by container, truck, or pallet, flat or assembled, FOB from PRIDE Industries, CA USA. Priority for pop-up hospitals, emergency response, and US CVD-19 hotspots. Reserve your HEROCarts™ now: 1-800-285-2300.**

### Reduce Contamination, Restore Care and Support Heroes.

“The Nurses are the superheroes. HEROCarts™ simply empower them to be the best caregivers they can be, while providing some relief and dignity to patients in a mass patient setting” says Taggart F. Neal, Founder/ CEO of TAGCarts™.

### Solution:

The HEROCart™ is patent-pending and designed for single patient use. It's a “Pop-up” biodegradable complete medical cart family product line. It's features and benefits set it apart as the first and only medical cart designed for rapid deployment. It further addresses long-term storage needs for hospital patient surge requirements and emergency /disaster response centers all around the globe to address the safety, and efficacy of healthcare professionals in temporary and semi-permanent emergency environments of care.

The HEROCards™ patent-pending features, advantages, and benefits set it apart as the first and only medical cart designed for pop-up healthcare deployment and emergency field hospitals.

TAGCards™ has aligned with partners, entered production with mass production capabilities within one to three weeks, and is procuring orders from the channels supplying this emergency care environment. The cart deploy and provide 1:1 ratio at patient bedside.

### About TAGCards™

TAGCards™ is a Veteran Owned, California Founder Institute company established in 2019 by Founder and CEO Taggart F. Neal. They are an innovative designer and manufacturer of patent-pending medical carts and workstations for healthcare, with mission driven values of social responsibility and sustainability.
